Three dice are shown. The first die shows 6 dots, the second shows 4 dots, and the third shows 5 dots. This is followed by an equals sign and a blank box for the answer.

A visual equation showing two dice. The first die shows a 3 and the second die shows a 1. This is followed by an equals sign and an empty rectangular box for the answer.

Two dice are shown: the first die shows 3 dots and the second die shows 5 dots. This is followed by an equals sign and an empty rectangular box for the answer.

Three dice are shown with 1, 2, and 4 dots respectively. An equals sign follows, followed by a blank box for the answer.

Two dice are shown. The first die shows 1 dot, and the second die shows 4 dots. This is followed by an equals sign and a blank box for the answer.
