The smart house of the future

Today we look at the future of our homes. What exactly is a smart house of the future?

From the outside, a smart home isn't very different from today's homes. It can be a luxurious flat in the city centre, a cottage far away in the country or a detached house on the edge of town. The real difference is that a home like this is eco-friendly. The materials used for the house can keep it warm in winter and cool in the summer without using too much energy. And the energy itself comes from different sources, like solar panels on the roof or even from the rubbish in a special bin behind the house.

Let's walk inside the house. There are a lot of electronic sensors which can turn on and off different functions. You can turn on the lights or set the temperature without touching anything. All you have to do is use your voice. Say what you need and the house can do it. If you're away from home, you can also do the same thing using your mobile phone which connects to your house.

But the amazing thing is that the smart home can remember what you like. It checks your fridge and orders the food which you've already eaten. It wakes you up when you need to get up on different days of the week or even tell you about your friends coming for dinner this evening.

Cześć Robert!

Właśnie przeczytałem bardzo ciekawy artykuł o inteligentnych domach przyszłości. Taki dom może z zewnątrz nie różnić się od zwykłego domu. Może na przykład wyglądać jak (1) _____ gdzieś z dala od miasta. Wokół domu lub na nim znajdują się ekologiczne urządzenia wytwarzające energię, np. panele słoneczne (2) _____.

Wnętrze domu będzie pełne czujników, tak aby można było włączyć i wyłączyć różne funkcje, np. ustawić temperaturę używając (3) _____ lub telefonu komórkowego, kiedy jesteśmy poza domem.

Inteligentne domy przyszłości będą zapamiętywać nasze preferencje. Mogą sprawdzić, czego brakuje w naszej lodówce, (4) _____ nas o konkretnej porze w zależności od dnia tygodnia czy też przypomnieć nam o wizycie przyjaciół.

Mam zamiar również poczytać o konkretnych urządzeniach, w jakie będzie wyposażony inteligentny dom. Może znajdę czas dziś wieczorem.

Paweł

MEETING NEW PEOPLE

A INDIA

Although the western tradition of shaking hands is quite common, many Indian people value the traditional form of greeting in which you put your hands together and just move your head down a little. While doing so, you should say the word '*Namaste*'. Remember not stand too close as personal space is very important for Indian people.

B BRAZIL

When you meet a group of people, it's important to greet each of the people present individually. Men usually shake hands while married women kiss each other once on each cheek. Single women add one more kiss. People usually stand very close to the person they're greeting.

C IRAN

When meeting people in a formal situation, it is important to remember that men must only greet other men (by kissing on the cheek) while women can only greet other women. This idea is similar in many of the neighbouring Arab countries. Shaking hands is usually used for less formal situations, like meeting a friend in the street.

In this country

- 1 it may be rude to say *Hello* to everyone in general. _____
- 2 you should keep your distance from the other person. _____
- 3 the greetings are typical of the whole region. _____
- 4 you can greet people in two very different ways. _____
