

## The future of shopping

These days with online shopping taking over more and more (39) every day, the question about shopping malls and local shops is unsettled. Why (40) your time, leave the warm and cosy bed just to buy goods, when all you need is to open an app or a website and choose what you need.

Some may reason that doing shopping in a mall is considered to be a(n) (41) that includes strolling, looking and socializing with others. But then, there are some negative sides as well; you may unconsciously check out the jeans on the nice-looking lady, and then be infuriated when you wearing the (42) jeans look not as well as you imagined.

Buying things online has both advantages and disadvantages, you need to decide for yourself (43) way is more comfortable for you – buying online or in the shopping mall.
