Most parents are worried about their children getting involved in romantic relationships. From 15 to 19 years of age, many teenagers spend a lot of time thinking or talking about being in a relationship. Young

people learn how to form safe and healthy relationships with friends, parents, teachers and romantic partners. This can prepare them for adult life. So parents should not oppose their relationships.

The teenagers should not be afraid to talk to their parents about their feelings and friendships. This can help them feel confident to discuss their relationships in the future. Most parents are always willing to lend an ear to what their children are saying. This is even more important when young people suffer break-ups or broken hearts. They need a shoulder to cry on and a sympathetic ear.

Parents shouldn't get very anxious when their teenage children are in a relationship. Saying strongly "no" will make teenagers stop speaking about their feelings. Teenagers should also listen to their parents' views and be respectful.
