

DIGGORY BONES

1 What has Emily found?

2 What did Quetzalcoatl get at Teotihuacan?

3 What kind of shell has Diggory seen?

4 Why is Iyam like this animal?

5 Was gold a treasure for the Aztecs?

6 What is Richard going to do if they don't help Iyam?

No, it wasn't.

He has seen a turtle's shell.

She has found a torch.

Quetzalcoatl got his long, green feathers there.

Because he's hard and strong on the outside and soft and weak on the inside.

He's going to destroy the place where they are.
