

SUMO STYLE

Most top wrestlers weigh more than 140 kilos. The heaviest are around more than 190 kilos. Well, there aren't many sumo wrestlers these days. It isn't a healthy lifestyle.

They get up early and train from 5 a.m. until around 1 p.m. They don't have breakfast so they are very hungry at lunch and they eat a lot. They have special dish called chankonabe. There's a lot of meat or fish in chankonabe and there are also a lot of vegetable. Well, it's full of vitamins and there isn't much fat in it, but they eat enormous quantities, sometimes six or seven bowls – and then maybe five bowls of rice.

They exercise a lot but not after meals. After lunch they sleep, then they get up and eat more chankonabe.

It's always chankonabe. Sometimes, some eggs and desserts. So, if you want to be sumo size, eat and sleep a lot. If not, maybe do sports which are healthier.
