

CIENCIAS SOCIALES. SEXTO DE PRIMARIA

A detailed physical map of Spain, showing its topography, elevation, and major cities. The map uses a color gradient to represent elevation, with green for low-lying areas and brown/yellow for higher elevations. The Iberian Peninsula is the central focus, with the Balearic Islands to the east and the Canary Islands to the southwest. Major cities like Madrid, Barcelona, and Seville are marked. A scale bar at the bottom right indicates a distance of 4,800,000 meters. A legend on the right side of the map provides a key for the elevation colors, ranging from 0 to 3,000 meters. An inset map in the bottom left corner shows the location of Spain within the context of the surrounding regions.

EL RELIEVE COSTERO DE ESPAÑA
