

Escribe aquí los resultados que obtuviste en el ejercicio del viernes:

$$\frac{1}{2} + \frac{3}{5} + \frac{8}{18} = \frac{\boxed{}}{\boxed{}} + \frac{\boxed{}}{\boxed{}} + \frac{\boxed{}}{\boxed{}} = \frac{\boxed{}}{\boxed{}}$$

The diagram illustrates the process of merging two sorted arrays into a third array. On the left, two input arrays are shown as columns of green boxes. A red crosshair indicates the current position in the arrays. On the right, the merging process is shown with arrows indicating the flow of elements into the output array. Red 'X' marks and red '=' signs indicate the placement of elements into the output array.
