

Match the titles (1-5) to the texts (A-D). There is one extra title.

1. BEAUTIFUL NATURE
2. UNPREDICTABLE WEATHER
3. BEST TIME TO VISIT
4. ACTIVE ADVENTURE
5. OFF THE SHORES

- A.** The Lake District is situated in the north of England. It's the largest national park in the country. People come here to see the greenest countryside and most stunning views. The Lake District has everything you may want: picturesque lakes, valleys, rivers, waterfalls and forests. As soon as you see it you will understand why it inspired so many poets and writers.
- B.** There is a good choice of activities in the Lake District. If you think that just walking is boring, you may try out something more risky, like mountain biking, kite surfing, horse riding, kayaking - the Lake District has all these and even more! The National Park is popular for rock climbing, cycling and water sports, too.
- C.** Lake Windermere is the largest lake in the National Park. Visitors can take a day trip on board of a ship and enjoy the beauty of the Lake District from the water. Tours may last from 45 minutes to 3 hours - or you can even spend all day on and around the lake and have lunch on board. But you should choose a sunny day for that.
- D.** Weather in the Lake District can change quickly. The morning may be warm and sunny. It will turn into a rainy afternoon and then a nice warm evening. Local people say they can have four seasons in one day! They advise to carry an umbrella all the time, because rain may start at practically any time of the day.
