

Lessons 3- 4 Photosynthesis

Read the definitions and write the scientific words. (oxygen / carbon dioxide / glucose / photosynthesis)

- 1 The process by which a plant makes its own food. (This only happens during daylight.)
- 2 A gas that is produced when people and animals breathe out, or when carbon is burned.
- 3 A gas that is in the air and that people and animals need to live.
- 4 A type of sugar produced in plants.
