Powers of 10 Grade 5 Exponents Worksheet

As the number of zeros in a factor increases, the number of zero in the product increases. For example, 7 x 20 = 140, 7 x 200 = 1,400, 7 x 2,000 = 14,000.

Find the value of the following exponents.

1. 10^5 = _____
2. 10^8 = _____
3. 10^6 = _____
4. 10^1 = _____
5. 10^2 = _____
6. 10^4 = _____
7. 10^7 = _____
8. 10^3 = _____
