

## Work Ethic and Band

1. Work is putting forth \_\_\_\_\_ at something you do.
2. Ethics are \_\_\_\_\_ that drive how you do what you do.
3. When a student possesses a work \_\_\_\_\_, they try hard and apply themselves without being told to.
4. Chances are something worth \_\_\_\_\_ is not going to be easy.
5. Anything worth doing is worth doing \_\_\_\_\_.
6. Band provides a place for social bonding, which is nurturing and \_\_\_\_\_ to humans.
7. When you are put into a situation where you have to cooperate with others, it keeps you from becoming \_\_\_\_\_.
8. Being in the band helps you understand and realize that it's not all about \_\_\_\_\_.
9. You can have a lot of talent, but if you don't work hard, your talent will never reach its \_\_\_\_\_.
10. It's futile to obsess about how much more talent you wish you had. You can't change the talent you are born with. What you can change is how hard you \_\_\_\_\_ to progress.
11. In short, work ethic is something at which you can \_\_\_\_\_.
12. How much effort I choose to apply is up to me.
