Hello, and welcome to Kim's Kitchen!

Today, I'm going to show you a simple recipe for cookies.

Let's start with the ingredients.

You will need three cups of flour, one and a half teaspoons of baking powder, eight ounces of butter, one and a half cups of sugar, and one egg.

,                      the flour and baking powder in a bowl.

, in another bowl,                      the sugar and butter.

,                      the egg, and                      in the mixture from the first bowl.

,                      a wooden spoon to put balls of the cookie dough onto a baking tray, and                      in the oven for ten minutes.

Allow the cookies to cool for a few minutes — but don't eat them all at once!
