

Make a timeline using the scientific knowledge given below:

Name: Matthias Schleiden
Year: 1838
Discovery: proposed that all plant tissues are made of cells.

Name: Robert Brown
Year: 1833
Discovery: Discovered the nucleus in plant cell.

Name: Galileo Galilei
Year: 1625
Discovery: build the first microscope.

Name: Carl Heinrich
Year: 1845
Discovery: proposes that cells are the basic unit of all life.

Name: Anton Van Leeuwenhoek
Year: 1670
Discovery: Improved the microscope.

Name: Robert Hooke
Year: 1665
Discovery: Observed cork under microscope and called it cells.
