## SERVING OTHERS -Classwork

**Total Marks: 20**

**Read the notes, then complete SECTION A.**

There are many persons in the world who dedicate their lives to serving others. They volunteer their time and talents to help those who are sick or less fortunate. Many such persons work for organizations like the Red Cross or the Salvation Army. Some work for churches and other organizations. Mother Teresa is an excellent example of someone who dedicated her life to serving others.

Persons who volunteer their services simply want to make the world a better place. They cannot sit back and watch people suffer. They render service because they love giving back to others. These people are often described as being willing, unselfish, humble and caring.

When individuals serve others they feel a sense of fulfillment. They feel that they are fulfilling their purpose in life when they serve others. Many persons state that life is meaningless if it is not dedicated to serving others.
