

## Mathematics

### Rounding to the Nearest Tens and Hundreds

If the digit is **0, 1, 2, 3, 4** the digit that's being rounded **stays the same** rest of the digits behind it becomes zero/s.

If the digit is **5, 6, 7, 8, 9** the digit that's being rounded, **round higher** the rest of the digits behind it becomes zero/s.

Round to the nearest ten.

1. 74 - \_\_\_\_\_

2. 23 - \_\_\_\_\_

3. 77 - \_\_\_\_\_

4. 63 - \_\_\_\_\_

5. 85 - \_\_\_\_\_

6. 56 - \_\_\_\_\_

7. 183 - \_\_\_\_\_

8. 828 - \_\_\_\_\_

9. 12, 789 - \_\_\_\_\_

10. 45, 830 - \_\_\_\_\_

Round to the nearest hundred.

1. 325 - \_\_\_\_\_

2. 196 - \_\_\_\_\_

3. 679 - \_\_\_\_\_

4. 444 - \_\_\_\_\_

5. 7, 832 - \_\_\_\_\_

6. 4, 555 - \_\_\_\_\_

7. 36, 589 - \_\_\_\_\_

8. 8,545 - \_\_\_\_\_

9. 89, 477 - \_\_\_\_\_

10. 93, 434 - \_\_\_\_\_
