Obstacle Races

Are you organizing a sports day at your school? Why not prepare an obstacle race?

In an obstacle race, competitors run from the starting line to the finishing line. On the way, they go over and under obstacles. They go around and through obstacles. The obstacles can be anything!

In this obstacle race, the competitors climb over a wall and then go through two hoops. Next, they climb up a tree and go down a rope. Then, they go under a net and run around a goal. Then, last of all, they kick a football into the goal and run across the finishing line. The winner is the person who can complete the race in the shortest time.

Obstacle races are great fun. Everyone can participate and it's a great way to keep fit.

Remember!
Have fun, but be safe!
Ready! Steady! GO!
