Mathematics

Find the area of the following triangle. Remember to use the correct formula.

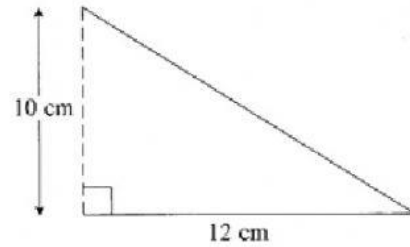

1)

$$\text{Area of triangle} = \frac{b \times h}{2}$$

$$\underline{\hspace{2cm}} = \text{cm}^2$$

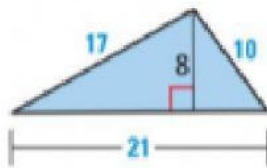

2)

$$= \underline{\hspace{2cm}}$$

$$\underline{\hspace{2cm}} = \text{cm}^2$$

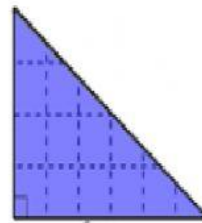

3)

$$= \underline{\hspace{2cm}}$$

$$\underline{\hspace{2cm}} = \text{cm}^2$$

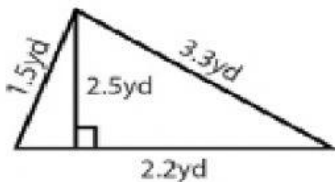

4)

$$= \underline{\hspace{2cm}}$$

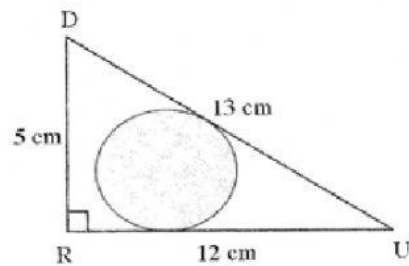

$$\underline{\hspace{2cm}} = \text{cm}^2$$

6

$$= \underline{\hspace{2cm}}$$

$$\underline{\hspace{2cm}} = \text{yd}^2$$

$$= \underline{\hspace{2cm}}$$

$$\underline{\hspace{2cm}} = \text{cm}^2$$
