

Name: _____

Writing: Paragraphs

To help a reader understand or follow your story or composition, a writer divides the information into parts called **paragraphs**. A paragraph is a group of sentences that work together to tell about a single topic or idea. Each new paragraph is set off from the others by its first line which is **indented** (a space between the left margin and first word).

Lets Practice

Write a paragraph entitled... '**The Bahamas My Home**'. You may use words from the word bank below to help you.
