Let's watch the video

## 2020 global tourism expected to drop 57% amid tighter border controls

Tokyo / Sun, September 13, 2020

Global international travel demand is expected to drop 57 percent in 2020, dented by tighter border controls and quarantine measures imposed in an effort to stem the coronavirus outbreak, according to a British research firm.

Demand for overseas tourism will not return to the level in 2019 until 2024, reflecting the economic effects of the pandemic and lingering negative sentiment toward international travel, including the impact on both leisure and business travel, Oxford Economics Ltd. said in a recent report.

Many countries are beginning to reopen their borders. "However, there is immense difficulty in striking the correct balance between ensuring the virus remains under control while reviving tourism," the research firm said.

# ACTIVITY 3

Analyze the social function and main information of the text 1 and 2 with your group!

## Text 1

Since 1981, the Humber Bridge in England has been the world's longest-span (1,410 meters) bridge. Like most other long-span bridges, it is a suspension bridge. In a suspension bridge, the bridge deck hangs, or is suspended, from thick steel cables. They are made of tens of thousands of kilometers of thin steel wires bound together.

Source: [www.nelps.wordpress.com](http://www.nelps.wordpress.com)

The cables go up and over tall towers on either side of the gap to be spanned. They are anchored firmly at each end. In the largest suspension bridges, the towers have to be built slightly out of parallel to allow for the curve of the Earth!

## Text 2

The construction of the Jakarta metropolitan area's new 21-kilometer-long Antasari–Depok–Bogor toll road kicked off on Thursday as the government boosted efforts to support the capital city's expansion.

The toll road connection will give the public an alternative access to ease congestion on Jl. Sawangan and Jl. Margonda in Depok, which is the only major route to Jakarta from Depok. "The Antasari-Depok toll road is an important project as it is part of the ring and radial road system in Jakarta," Public Works Ministry Director General of Highways Djoko Murjanto said during the launch.
