4 ★★ Complete the text with the words.

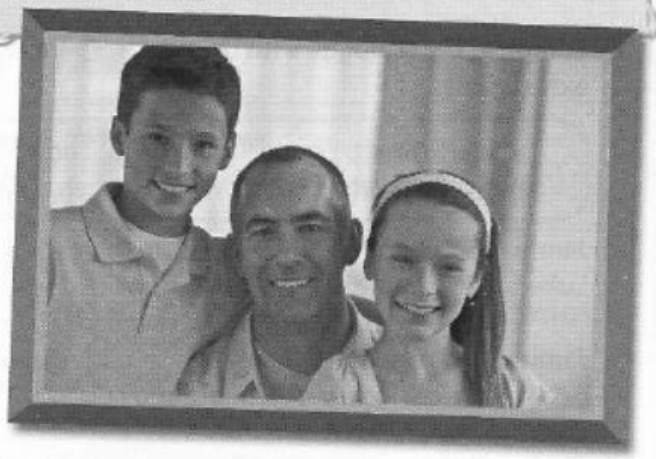
bald blue glasses light ~~long~~ moustache overweight round short slim spiky tall

A family photo

This is a family photo from seven years ago. I'm the girl in the photo and at that time I had *long* hair. Now, my hair is different – it's short and [1] _____ brown. Of course, my eyes are the same colour – they're [2] _____, and my face isn't very different – it's quite small and [3] _____.

My dad is really different now! In the photo, he had [4] _____ dark grey hair (but not a lot!). And now he hasn't got *any* hair – he's really [5] _____ but he's got a beard and a [6] _____! He's fit and he always eats healthy food so he's [7] _____ and he isn't [8] _____. He uses [9] _____ when he reads now.

And my brother? His hair is more modern and [10] _____ now. It's the same colour – dark brown. And he's very [11] _____ now – his height is one metre ninety. He's bigger than our dad!



5 ★★★ Describe some of your friends and family.

My aunt Melisa has got dark curly hair, brown eyes and a square face.
