**Part 2****Questions 9 to 16**

Read the text below and correct the underlined errors.  
For each question, write the correct word in the space provided on your answer sheet.

**The Rainforests**

Malaysia boasts many forests among which (0) were the rainforests, said to be one of (9) an oldest rainforests in the world. The rainforests of Southeast Asia are also (10) know to be the most biologically diverse. Tropical forests are important for the continual existence of human beings. (11) It help to regulate the flow of water into our rivers and moderate climatic change. Forests are also rich (12) on various flora and fauna. As one of the most productive type of forests in the world, they can (13) provided many things for us. We get timber for all kinds of uses, rattan and bamboo, wild fruits (14) or medicinal plants. The animals living in the forests are (15) importance, too.

These forests have been made National Parks as one way of conservation. (16) Furthermore, deforestation, illegal removal of forest products as well as public encroachment continue to be a problem to our still developing country.
