# AREA OF COMPOSITE FIGURES

Fill in the blanks WITH NUMBERS ONLY

Find the area of each composite figures. (HINT: separate the shapes first, and then find the area one by one)
Remember → A = L x B

1.

8m

8m

3m

12m

(Hint: split into 2 rectangles first, and then find area of each rectangle one by one)

Area of rectangle A = _____ m²

Area of rectangle B = _____ m²

Total area (A+B) = _____ m²

2.

10cm

20cm

5cm

18cm

(Hint: split into 2 rectangles first, and then find area of each rectangle one by one)

Area of rectangle A = _____ cm²

Area of rectangle B = _____ cm²

Total area (A+B) = _____ cm²

3.

5m

4m

10m

5m

8m

14m

(Hint: split into 3 rectangles first, and then find area of each rectangle one by one)

Area of rectangle A = _____ m²

Area of rectangle B = _____ m²

Area of rectangle C = _____ m²

Total area (A+B+C) = _____ m²
