WRITING TEST

WRITING TASK 1:

The bar charts show the comparison of salt intake between men and women in different ages in American in 2000.

Summarize the information by selecting and reporting the main features and make comparisons where relevant.

Write at least 150 words

TASK 2:

"Some people believe that children should be allowed to stay and play at home until they are six or seven years old. Other people believe that it is important for young children to go to school as soon as possible."

Discuss both of you and give your opinion.

Write at least 250 words
