Education has been the first priority of my life. And I think a city life can offer a great support in terms of offering a vast choice of good institutions that one may like to choose for the higher studies.

I like city life because of the diversity of things you can do. For example, job opportunities are better in the cities. So, if you're a city dweller, you don't have to leave your home in the search of better work opportunities. You'll be able to earn the livelihood and be by the side of your family simultaneously. This was probably the biggest reason I never could go against the city life.

The third reason I like city life because it offers hundreds of other recreational opportunities. I'm especially a fun loving person and never like to sit at home in the weekends. City life is always very happening and great fun. You can go to a water park, enjoy fun rides with your family, have a great time with your friends in a restaurant.
