

Lesson 5: Interesting designs

Activity 4 Reading

What is good about Eva's design? Read paragraph 3 and make a list:

Egg carton of the future

Hungarian design student Valicsok designed an egg carton that is easy to make and can hold both small and large eggs.

Eva's carton is easy to make, and it can hold both small and large eggs. The rubber band and the cut-out holes stop the eggs from moving. The top is open so you can see the eggs. The egg carton is environmentally friendly because it can be reused many times.
