**A.**

$3x + y = 5$; Slope = _____ y-intercept = _____

$2x + y = 9$; Slope = _____ y-intercept = _____

How would compare the slopes and y-intercepts of the lines in the system?

_____

_____

_____

_____

**B.**

$3x - y = 4$; Slope = _____ y-intercept = _____

$y = 3x + 2$; Slope = _____ y-intercept = _____

How would compare the slopes and y-intercepts of the lines in the system?

_____

_____

_____

_____

**C.**

$3x + y = 5$; Slope = _____ y-intercept = _____

$2x + y = 9$; Slope = _____ y-intercept = _____

How would compare the slopes and y-intercepts of the lines in the system?

_____

_____
