

A.

$3x + y = 5;$ Slope = _____ y-intercept = _____

$2x + y = 9;$ Slope = _____ y-intercept = _____

How would compare the slopes and y-intercepts of the lines in the system?

B.

$3x - y = 4;$ Slope = _____ y-intercept = _____

$y = 3x + 2;$ Slope = _____ y-intercept = _____

How would compare the slopes and y-intercepts of the lines in the system?

C.

$3x + y = 5;$ Slope = _____ y-intercept = _____

$2x + y = 9;$ Slope = _____ y-intercept = _____

How would compare the slopes and y-intercepts of the lines in the system?
