steps dark open chess larger robot deeper golf round ground air

B Listen and write names.

C Look at the pictures in A and B. What differences can you see?

D Read the text. Choose the right words and write them on the lines.

Our planet

Example

The planet we live on is called

'Earth'. Earth is one of the eight

1 planets move around
round and round the sun.

2 Until twentieth century, we didn't have

3 really good maps of our planet. But now,

4 special cameras in space can pictures of
Earth so making maps is easy!

5 of our planet has water on it so, in

6 pictures, Earth often like a big blue and
white ball!

7 But pictures of Earth don't only help us to make
maps. When we look at, we can also

8 learn a about the Earth's environment
and weather.

9 Travelling in space and exploring other planets
teaches more about Earth, too.

10 you like to design spaceships or to be an
astronaut one day?

on at in

1 what who that

2 all the one

3 lots any no

4 take taking took

5 Most Every Many

6 looks looking looks

7 they their them

8 too lot some

9 ours us our

10 Can May Would

E Listen and write names, then colour the planets.

Mars Mercury Uranus Saturn Jupiter

F Answer questions about our planet.

Earth

What/colour?	blue and white	How long/take/ go round/sun?	365 days, 6 hours and 16 minutes
What/temperature?	about 14°C		
Has/rings?	no	How many/moons?	1

Read. Write the word.

air desert forest Earth ocean planets sand space pond waterfall
