

HOW DO WE HEAR

Name :
Class :
Date :

Goals	1. Investigate the part of the ear 2. Investigate the function of the ear's parts

PART AND FUNCTION OF EAR

Hammer	Semisircular canal	Ossicle	Ear drum	Stirrup	Cochlea	Middle Ear
Ear canal	Auditory nerve to the brain	Outer Ear	Anvil	Inner Ear	Pinna	Eustachius tube

Function:

Transfer sound signal to the brain — 1

Creating nerve signal of sound
Reseptor vibration from ossicle — 2

Increase vibration from ear drum — 3

Transfer vibration to ossicle
Accept vibration from ear canal — 4

Produce ear cerumene/earwax
Transfer sound waves to ear drum — 5

Collect sound waves — 6
