

9. Hitung luas bagi setiap rajah yang berikut.

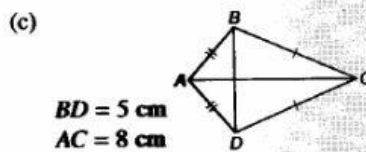

Contoh

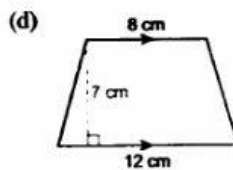

$$\begin{aligned}\text{Luas} &= \frac{1}{2} \times 10 \times 5 \\ &= 25 \text{ cm}^2\end{aligned}$$

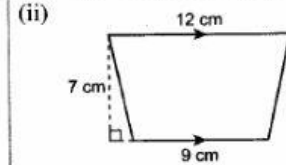

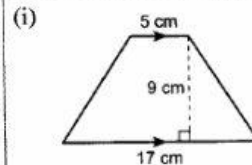

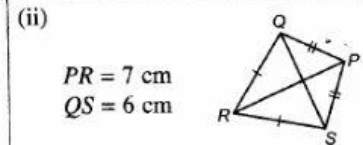

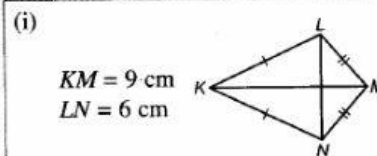

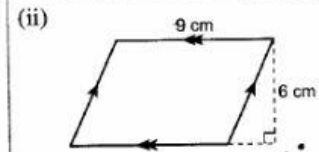

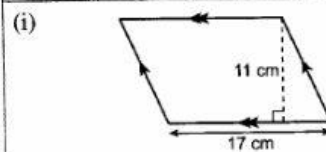

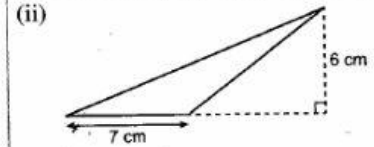

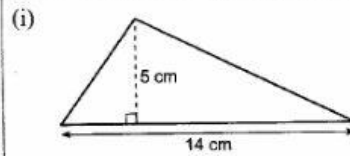

$$\begin{aligned}\text{Luas} &= 8 \times 5 \\ &= 40 \text{ cm}^2\end{aligned}$$

$$\begin{aligned}\text{Luas} &= \frac{1}{2} \times 8 \times 5 \\ &= 20 \text{ cm}^2\end{aligned}$$

$$\begin{aligned}\text{Luas} &= \frac{1}{2} \times (12 + 8) \times 7 \\ &= 70 \text{ cm}^2\end{aligned}$$

TP3 Mengaplikasikan kefahaman tentang perimeter dan luas untuk melaksanakan tugas mudah.
