

WELCOME STUDENT

NAME :

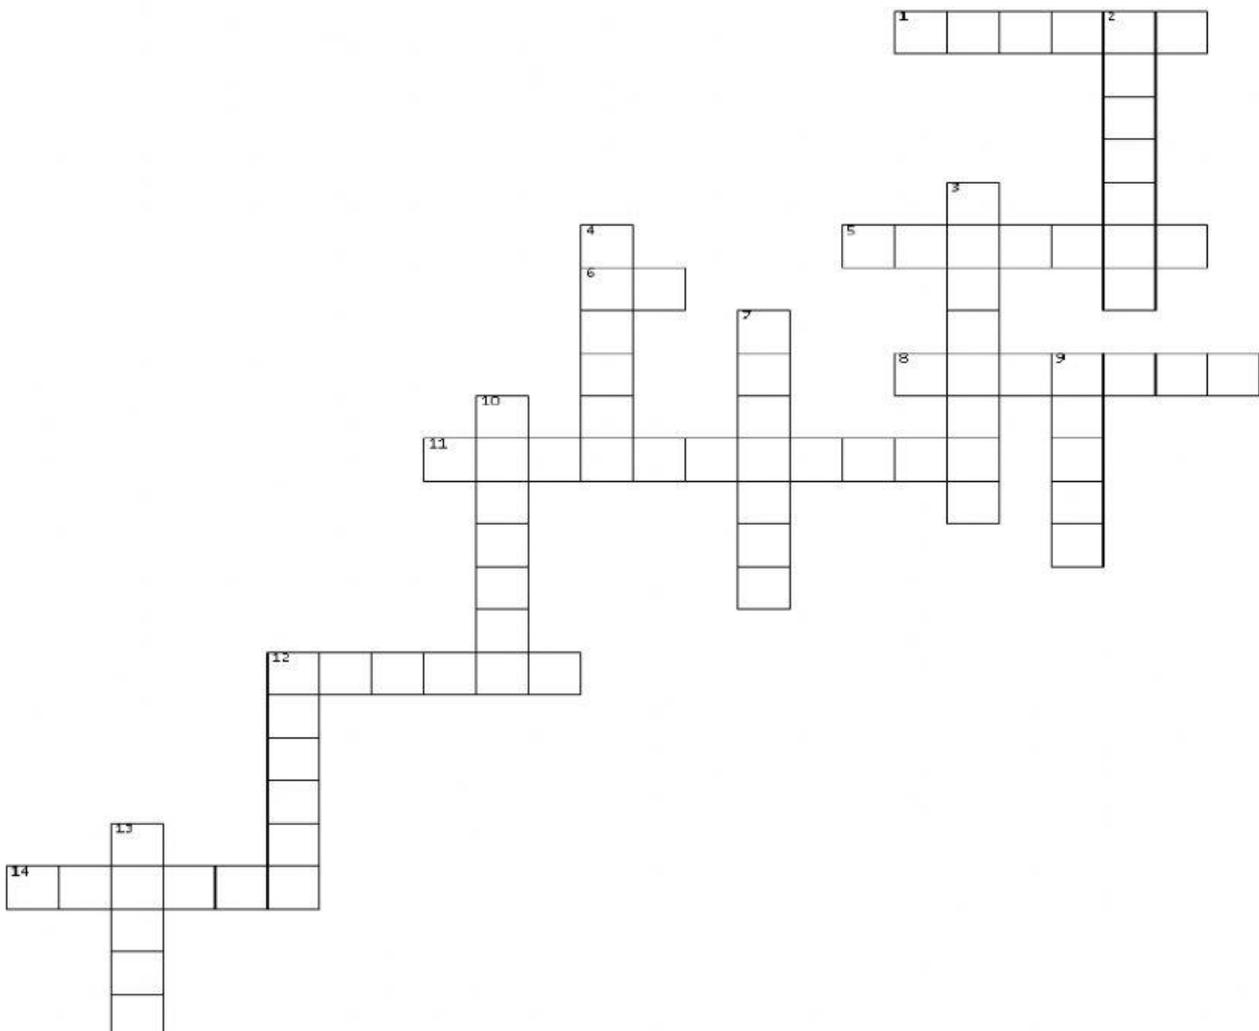

CLASS :

MATERIAL :

Use the clues to fill in the word above. Words can go across or down:

- Read the following questions
- Answering questions that have been read
- Charge to the boxes that are already available according to declining and horizontal order

A HYDROCARBON CROSSWORD PUZZLE

QUESTION :

ACROSS

1. The entire saturated hydrocarbon aliphatic compound thread count three
5. Alkane hydrocarbon dating formula kimia C_6H_{14}
6. Light hydrocarbons found in earth's gas
8. A kareon compound that opens the chain and that chain enables for separation
11. Kareon compound composed of hydrogen atoms
12. Saturated aliphatic hydrocarbon compounds all of which are tunggal c-c
14. The simplest gaseous CH_4 chemistry

DOWN

2. The most monocarbonous, monochromatic compound has one ring structure cycloparaffin
3. The hydrocarbons that are used for the use of cholesterol
4. Two or so compounds that have molecular water same with different structures
7. A mixture of hydrocarbon used to make candle wax
9. A mixture of amorphous natural hydrocarbons of a substance solid
10. A mixture of hydrocarbon
12. Saturated aliphatic hydrocarbon compounds with lase
13. Compact hydrocarbon found in earth's gas
