

Can you write out the tens and units for these:

|                                                                                  |                      |                      |                                                                                   |                      |                      |                                                                                     |                      |                      |
|----------------------------------------------------------------------------------|----------------------|----------------------|-----------------------------------------------------------------------------------|----------------------|----------------------|-------------------------------------------------------------------------------------|----------------------|----------------------|
|  | TENS                 | UNITS                |  | TENS                 | UNITS                |  | TENS                 | UNITS                |
| <input type="text"/>                                                             | <input type="text"/> | <input type="text"/> | <input type="text"/>                                                              | <input type="text"/> | <input type="text"/> | <input type="text"/>                                                                | <input type="text"/> | <input type="text"/> |

Now try some of these:

|      |                              |                              |      |                              |                              |
|------|------------------------------|------------------------------|------|------------------------------|------------------------------|
| 58 = | TENS<br><input type="text"/> | ONES<br><input type="text"/> | 45 = | TENS<br><input type="text"/> | ONES<br><input type="text"/> |
| 26 = | TENS<br><input type="text"/> | ONES<br><input type="text"/> | 74 = | TENS<br><input type="text"/> | ONES<br><input type="text"/> |

Follow the rule and solve these sums:

| + 5 |  |
|-----|--|
| 2   |  |
| 4   |  |
| 1   |  |
| 3   |  |
| 5   |  |

| + 3 |  |
|-----|--|
| 1   |  |
| 4   |  |
| 5   |  |
| 3   |  |
| 2   |  |

| + 6 |  |
|-----|--|
| 2   |  |
| 4   |  |
| 3   |  |
| 1   |  |
| 5   |  |

Fill in the missing numbers:
