VOCABULARY 2

1 Read. Read the clues and write the answer.

away from lean direction toward

1. You are in the park. Some bugs are moving near the tree. Suddenly you can't see them anymore. They disappeared. Which _____ did they go in? Up the tree!
2. You feel sad. You're going to an adventure camp for two weeks. You won't be with your family. You'll be _____ your friends, too. ☹
3. You are asleep and dreaming. In your dream, there is a big monster with two green heads. You're very scared because it is coming _____ you!
4. You're at the pool for your first swimming lesson. Don't _____ over the deep end—you might fall in!

2 Listen and look. Check T for *True* and F for *False*. TR: 4.1

1. Gravity is a force. (T) (F)
2. Gravity pulls things down. (T) (F)
3. Gravity pulls things toward the center of the earth. (T) (F)
4. Gravity pushes the sun away from us. (T) (F)
5. Ming thinks gravity is boring. (T) (F)

3 Listen again. Complete the dialogue. TR: 4.2

Ming: Mrs. Li, can you please explain something?

Mrs. Li: Sure. How can I help you, Ming?

Ming: I still don't understand gravity.

Mrs. Li: OK, when you fall over, what _____? You fall down on the ground. That's the _____ of gravity pulling you.

Ming: So gravity _____ everything *down*, right?

Mrs. Li: Gravity doesn't pull things _____. Gravity doesn't pull the sun down to the earth, for example! So, what does _____ do?

Ming: Does it pull things _____ the earth?

Mrs. Li: Yes, that's right, Ming! So if you _____, gravity pulls you toward the _____ of the earth.
