

## A wonderful ETxperience

It was a quiet night in the park, with a clear sky when something really strange happened. We were admiring the full moon when another singular full, blueish moon appeared in the sky. While we were trying to record it with our mobile phones, the UFO suddenly vanished and a little glowing fellow shone in the gloomy atmosphere. We tried to make sense to it, shouting that it might be a ghost or a spectrum. Then, we noticed that it was pointing at our dog and the dog immediately responded. It followed it!! Out of the blue, the UFO appeared again and all of a sudden, the dog and the alien vanished when a shiny light stung our eyes. We checked our recording, but it didn't show a thing. It was all black and soundless. It was the last time we saw our dog.
