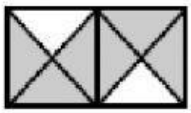
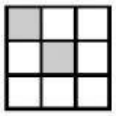
Name: _____ Class: _____

REVISION: UNDERSTANDING FRACTION AND COMPARE FRACTIONS

1. Write the fraction for the shaded part of each region.





2. Drag then drop numbers to complete these sentences.

3	5
7	9

a. 9 soccer players share 7 bottles of water.

Each soccer player gets $\frac{\square}{\square}$ bottles of water.

b. 3 sandwichs share equally by 5 people.

Each person gets $\frac{\square}{\square}$ sandwich.

3. Compare fractions.

$\frac{5}{8} \bigcirc \frac{7}{8}$ $\quad \frac{6}{3} \bigcirc \frac{6}{5}$ $\quad \frac{5}{12} \bigcirc \frac{3}{12}$

$\frac{3}{4} \bigcirc \frac{3}{3}$ $\quad \frac{2}{3} \bigcirc \frac{1}{2}$ $\quad \frac{6}{5} \bigcirc 1$

4. Multiply or divide to find a **fraction equivalent** to each.

$\frac{2}{7} \overset{\times 4}{=} \frac{\square}{\square}$ (multiply by $\frac{\square}{\square}$)

$\frac{12}{15} \overset{\div \square}{=} \frac{\square}{\square}$ ($\div 3$)

$\frac{\square}{30} \overset{\div \square}{=} \frac{4}{5}$

5. Find **equivalent fractions** to compare. Then write >, <, or =

$\frac{5}{4} \bigcirc \frac{8}{7}$ $\quad \frac{5}{6} \bigcirc \frac{4}{5}$ $\quad \frac{7}{24} \bigcirc \frac{3}{8}$

LIVEWORKSHEETS

6. Joe made a table to show the time it took him to walk to school on different days of the week.

Day	Time (hours)
Monday	$\frac{7}{12}$
Tuesday	$\frac{3}{6}$
Wednesday	$\frac{8}{12}$
Thursday	$\frac{1}{3}$

b. Which day did Joe walk more, Tuesday or Thursday?

_____, because 
b. Order the day from least to greatest time for walking.

_____, _____, _____, _____.
