

Gary has a coin collection. The bar graph shows the number of coins he has from different countries.

Using the data from the graph, complete the following table.

Country	Brunei	Thailand	Indonesia	Myanmar	Philippines
Number of Coins		35			

- (a) Gary has the same number of coins from _____ and _____.
- (b) Gary has half as many coins from Thailand as he has from _____.
- (c) He has _____ more coins from Brunei than from Myanmar.
- (d) Gary gave away all his coins from Indonesia. He now has the most number of coins from _____.
