Inventions and Technology in our Lives!

READING ASSESSMENT

Let's listen and read!

The problem

- ☞ The COVID-19 is contagious when many people are in one place.
- ☞ Usually, public transportation is crowded.
- ☞ Bikes offer an alternative kind of transportation, but they are expensive.

Opportunity

- ☞ Many people use bikes as transportation.

JANKO ECO-BIKES

Innovation

- ☞ Bamboo grows in different places in Peru.
- ☞ Bamboo is a strong plant.
- ☞ It is a good material to make bikes and it is cheap.

The Janko Ecobicicleta

- ☞ This bike is eco-friendly.
- ☞ The designer is Víctor Barraza.
- ☞ He is an architect.
- ☞ He's from Tingo María, but he lives in Lima.
- ☞ The most important part of the Janko eco-bike is the frame.
- ☞ It is entirely made of bamboo.
- ☞ The Janko eco-bike is light, very fast and cheap.
- ☞ This invention is amazing.
