Chapter : Caption

Endangered Giant Panda. Giant pandas are one of the biggest animals, found in central China in dense bamboo and coniferous forest at altitudes of 5,000 to 10,000 feet. Now, giant pandas are listed as endangered species under the U.S. Endangered species Act in1984 because their habitats have been annihilated in several regions. These international and domestic regulations prohibit the use and international trade of the species for commercial purposes.
