

Perímetro de Figuras Compuestas

1. Calcula y escribe el perímetro de la siguiente figura.

A diagram of a semicircle. The straight base is marked with a red dot at its midpoint and a dimension line indicating a length of 6.
A diagram of a quarter circle (quadrant) with a radius of 4. The two straight sides are labeled with a dimension line and the number 4.
Calcula solo la línea roja A diagram of a square with side length 5. Four semicircles are attached to each side of the square, with their diameters equal to the side of the square. The text "Cuadrado de lado 5" is written inside the square. The outer boundary of the figure, consisting of the four semicircular arcs, is drawn in red.
