

# Tigers

Tigers come from the cat family.

They live in the hot forests of India and in the cold mountains of Siberia and the Himalayas.

Tigers can be 3 to 4 meters long. They live about 20 years.

They often have orange and black fur. They have good eyes, very sharp claws, and strong teeth.

Tigers sleep and rest all day and go hunting at night. They kill big animals and often eat 25 kilograms of meat at a time!

Tigers swim well and sometimes catch fish.

**hot** жаркий  
**forest** лес  
**mountain** гора  
**3-4 meters** 3-4 метра  
**long** в длину

**about 20 years** около 20-ти лет
