Stressors are events, occurrences, situations or activities that causes challenges or places new or different demands on us.

There are two types of stressors:

1. Internal Stressors
2. External Stressors

INSTRUCTIONS: Drag each stressor and place it in the correct column.

Fear of public speaking

Illness or injury

Negative self-talk

Toxic environment

Making difficult decision

Stressed caused by an event or situation that happened to you.

Death or loss of a loved

Stressed caused by your own thoughts, mindset, belief or expectation
