Interdisciplinary Unit: Habitats

Directions: Read the short paragraph below to answer the questions.

Habitats

Every living thing needs a place to provide it with food, water, and space it needs to survive. This is called a habitat. Some animals live in water only they are called "aquatic animals." Some aquatic animals can live in habitats such as the sea like a fish, or oceans like a whale. Another type of habitat is a desert. A desert is a dry place with little to no water. Some animals that can survive in this habitat are camels and rattlesnakes. Some plants such as a cactus can live there also.

1. What is a habitat?

_____

_____

_____

2. Which two are examples of habitats?

_____

_____

_____

3. What type of habitat is a desert?

_____

_____

_____

4. Which type of animals can survive in the desert?

_____

_____

_____
