TYPES OF MEDIA

Electronic and print are types of media sources in The Bahamas used to transmit information. Television and radio are examples of electronic media.

Newspaper and magazine are examples of the print media.

What people read in the newspaper and what they watch and listen to on television and radio affect the way they live, what they eat, what they wear and how they spend their resources (time and money).

The media communicates positive and negative messages (attitudes and values) through programmes, news, entertainment, sports, advertisements, etc.
