READING *Read this article and do tasks A and B*	**5 x 0.2 = 1 mark**

A.
It is estimated that about 40 per cent of the world's population use social media, and many of these billions of social media users look up to influencers to help them decide what to buy and what trends to follow. So, what is an influencer and how do we become one?
An influencer is a person who can influence the decisions of their followers because of their relationship with their audience and their knowledge and expertise in a particular area, e.g. fashion, travel or technology. If you are one of them, then here are three tips on how to do it.

B.
What is the area that you know most about? What topics do you find more exciting to talk about? Find the specific area that you're most interested in and develop it.

C.
Most influencers these days are bloggers and micro-bloggers. Decide which medium – such as your own online blog, Instagram or Snapchat – is the best way to connect with your followers and chat about your area. When you have done that, write an attention-grabbing bio that describes you and your speciality area in an interesting and unique way. Make sure that your bio is fully visible.

D.
Publicise your posts on a variety of social media, use hashtags and catchy titles and make sure that they can be easily located. There is no point writing the most exciting blogposts or posting the most attractive photographs if no one will be able to find them. Most importantly, if you want to become a social media influencer, you need to have patience. Keep posting and your following will gradually increase. Good luck!
