Lucky Pets

Many people have pets and love them very much. Harumi Aoki is from Aurora, Illinois. She is nine years old. Harumi adores animals. She has a dog. His name is Twinkles.

Twinkles has a very big kennel and a very soft and comfortable bed. He also has five collars, three leashes, a sweater, and many toys. Twinkles goes for a walk every day, and he visits the vet every month.

Today is a very special day for Twinkles. It is his birthday. He is three years old now. Harumi planned a picnic for Twinkles and his friends. Harumi has presents and a cake for Twinkles. He is a very lucky dog.

Meet Günther. He is a German shepherd. Günther is Stephen Right's pet. Mr. Right gave Günther 372 million dollars as a birthday present. That is more money than most people can spend in a lifetime! The money is in the bank. Günther lives in a palace. He has a diamond collar and travels by limousine.

Günther eats very expensive and very delicious food. A personal chef prepares his meals. Twelve people work for him every day.

Günther is on vacation now. He is staying at a beautiful hotel. People cannot stay in this hotel. Only rich dogs like Günther can stay there. Günther is a very, very lucky dog!

Correct the sentences

1. Harumi has a cat. _____
2. Twinkles has a small kennel. _____
3. Twinkles goes to the vet every day. _____
4. Gunther doesn't eat expensive food. _____
