Endangered Species and Extinction

Extinct means a species of plant or animal that is no longer living.

For Example:

a)The Dodo Bird

b)Bali Tiger - Extinct 1937 due to hunting and destruction of habitat

c)Island Tortoise - Extinct 2012 due to hunting and introduction of competing species.

d)Socorro Dove - Extinct 1972 due to hunting and destruction of habitat

e)Warrah - Extinct 1876 due to hunting and poisoning

Endangered means a species of plant or animal that is in immediate danger of becoming extinct and needs protection to survive.

Ways That Species Become Endangered

a)Habitat loss

b)Unregulated or illegal killing or hunting

c)Pesticides (poisonous chemicals)

d)Pollution

e)Competition with other species

f) Diseases

g)Predation (Animals eating other animals)

LIVEWORKSHEETS

Some examples of animals that are endangered are Otter, Black Rhino, Florida Panther, Giant Panda, Green Sea Turtle and Grizzly Bear.
