**1. Read the text and complete it by choosing the correct option.**

Today, millions of [ ] want to learn or improve their English but it is difficult to find the best [ ]. Is it better to study in Britain or America or to study in your own [ ] ?

The [ ] of going to Britain are obvious. Firstly, you will be able to listen to the language all the [ ] you are in the country. You will be surrounded completely by the language wherever you go. Another advantage is that you have to [ ] the language if you are with other people. In Italy, it is always possible, in the class, to speak [ ] if you want to and the learning is slower.

On the other hand, there are also advantages to staying at home to study. You don't have to make big changes to your life. As well as this, it is also a lot cheaper than going to Britain but it is never possible to achieve the results of living in the UK. If you have a good teacher in Italy, I think you can learn in a more concentrated way than being in Britain without going to a school.

So, in conclusion, I think that if you have enough time and enough [ ], the best choice is to spend some time in the [ ]. This is simply not possible for most people, so being here in Italy is the only viable option. The most [ ] thing to do in this situation is to maximise your opportunities: to speak only English in class and to try to use English whenever possible outside the class.
