1. **Read the text and circle True or False (Lee el texto y encierra en un círculo True o False)**

Hello, my name is Carlos and I am a twelve-year-old boy. I need you to help us. In my city there is trash everywhere, nobody recycles! Restaurants give cups and plastic cutlery and people do not refuse them. My friends do not take care of the water and they waste a lot of food. We don't have trees, flowers or plants in the streets and parks. Boys and girls are unhealthy. They eat a lot of sweets, watch TV every day, and never exercise. Can you help us please? I don't think this is good for the planet. We need a superhero to teach us how to be more green and healthier.
