

## Fusion Café

I got to know about \_\_\_\_\_ (***name of restaurant***) from a \_\_\_\_\_ (***where/who did you hear from***), who is a food blogger, one month ago. Within this period, I have already been there six times.

Fusion Cafe offers a variety of \_\_\_\_\_ (***what type of food/cuisine***) with a twist. I \_\_\_\_\_ (***how often you visit this café***) this cafe because of its burgers. I have tried different types of burgers such as the oriental beef burger, teriyaki chicken burger, lemon and herbs fish burger and black beans burger and I like them all.

However, the burger which really satisfies my palate is the beef and mushroom burger. The layers of bread, lettuce, onions, tomatoes, beef patty, melted cheese, fried mushroom and the restaurant special sauce will \_\_\_\_\_ (***explain your feeling about the food***). The burger bun is soft and toasted \_\_\_\_\_ (***describe how well it's toasted***). The beef patty is juicy and the mushroom is \_\_\_\_\_ (***describe the mushroom***). I love the combination of the taste once I sink my teeth into the big fat burger.

Additionally, the burger comes with two side dishes – French fries and mixed salad. The homemade fries are \_\_\_\_\_ (***describe the fries***). The mixed salad is so \_\_\_\_\_ (***describe the salad***). You can hear the crunch in each bite.

For me, Fusion Cafe is a great family restaurant. There are a lot of choices from the menu which cater to each individual's taste buds. The restaurant is \_\_\_\_\_ (***describe the restaurant***), and the food is reasonably priced. I definitely would recommend it to my friends.
